Education	Master of Science, Computer Science, New York University GPA: 3.9/4.0 Concentration: Machine Learning	September 2017 - May 2019
	BS Game Design and Development, Rochester Institute of Technology GPA: 3.9/4.0 - summa cum laude Minor: Computer Science	August 2012 - May 2017
Experience	Data Software Engineering Intern, Enigma Technologies - Worked on a big data ETL pipeline as part of an agile team (Python)	January 2018- Present, New York City, NY
	Software Developer Intern, GeekHive - Developed a cross platform mobile application for a Fortune 500 company (React Native, Typescript, Redux) - Worked on an agile team delivering flexible requirements for the client and pushed production level code	May 2017 - August 2017, Warwick, NY
	Financial Director, RIT SAAC - Executive position for the Student Athletic Advisory Committee, an MSO (Major Student Organization)	August 2016 - May 2017, Rochester, NY
	Software Developer Intern, eHealth Technologies - Lead developer for a HIPAA sensitive workflow automation tool for the daily sorting and logging process of hundreds of incoming patient medical packages (C#, .NET, SQL) - Cut workflow process time by over 50%, reduced human error, added robust logging, and allowed for scaling in volume without hiring additional employees - Prototyped a medical document classifier and customer support sentiment analyzer for the CTO (C#) - Assisted in the development of a medical referral web platform (AngularJS and Node.js)	August 2015 - May 2016, Rochester, NY
Skills	Languages C#, C++, Java, Python, HTML, CSS, Javascript, React Native, Node, SQL Software Windows, Unix, Git, Unity, Apache Spark, JIRA, Confluence, Visual Studio Other Technical Writing, Agile, Public Speaking	
Projects	News Crawler and Classifier- Github Link - Python web crawler that scrapes 2000 articles from numerous rss feeds per day - Uses scikit-learn to run multiple supervised learning classifiers to find the best classifier for news text data - Uses k-means to observe clustering behaviour of all articles and determine if news categories make sense - Uses minhash and jaccard similarity to test accuracy of k-means clustering	September 2017 - Present
	Portfolio Site - nickgreenquist.com - Built a personal website to showcase my skills, work, information, and a custom interactive 'travel' map.	June 2017 - Present
	MultiQuest - multi-quest.herokuapp.com - Multiplayer mobile web game. Created using HTML5 Canvas. Runs on a Node.js server and is deployed on Heroku. Socket.io is used for multiplayer logic. Redis and MongoDB handle player accounts.	October 2016 - October 2017
Activities and Awards	NYU Programming Team	2017 - Present
	RIT NCAA D3 Wrestling - Team Captain, 3x Academic All-American, CoSIDA Academic All-District	2012 - 2017
	RIT Academic Awards - Excellence in Student Life Award - Interactive Games and Media Undergraduate Delegate - Outstanding Undergraduate Scholar - RIT Public Speaking Champion	2017 2017 2016 2015
